LIES, DISCRETS AND INCONVENIENT SILENCES

Otherwise known as EDWS published by Jerry and Pat Jones 1854 Wagner St., Pasadena, Ca; #11-07, Momic, avg 14-16 Pages, I Recently come into Possession of issue #19, Where ADAM was mentioned, I don't agree with all the bull he said about me, but who am I to argue when somebody talks about you, it is a very fine well produced magazine, and if you are interested in someone who crazy enough to put that much effort into a magazine, I would then reccommend that you flood Jerry with a rash of game offers, at least he was kind to Bob Lipton he spelled his name right, I always misspalled it on purpose; has an feature on Pat (The Dippy Widow) and except for pick number two, I disagree with the rest of her choice especially since #6, Suicide has published an issue since August, well anyway that is the Gist of the Article, so ADAM RECOMMENDS EDWS, but who are we, were crazier than him since we been at this since 1966.....

And now to your delight the warehouse presents games... games... games...

NOTE There is a possibility of a Postal Strike in Canada and in Fairness to the Canadian players,if it does happen,I will delay the games they are in,if the American players object,they can lump it.

NOTE: The Above game is into its third season and still no Boardman number. this is something we never had under Doug Beyerlein and unless there is a radical change real soon quick,I am going to stop using the Boardman numbers and start using my own system,so all ADAG games will use the numbering AD-,the next game which should be in 1901 next year will AD-2,I for one have always tried to work within the system, but system sucks, the whole basic idea of all of this is Postal Diplomacy whether is run by the IDNS system of Variety or the ADAG system of games,there should be room in the system for both,I for one don't read articles,I read the letters to the Editor more than anything else,at least there isn't so much bullshit in them,End of soapbox

DEADLINE FOR ALL GAMES IS SATURDAY NOVEMBER // 1978
